Profile

Ownership:	Public Non-Profit
If Other, please explain:	
Date Founded/Incorporated:	9/28/2021
Brief History of Company:	Monroeville Baseball Association (MBA) has been around for four decades to support youth in Monroeville who wanted to play recreational baseball. In 2021, MBA reincorporated as a new non-profit, Monroeville Baseball & Softball Association (MBSA).
Product/Service Description/Purpose:	The purpose of the Association shall be to foster, in the youth of the Monroeville and surrounding areas, the ideals of good sportsmanship via provision of supervised, competitive baseball and softball games. The MBSA is also charged with improving skills and developing talent within the local youth, thus, properly molding men and women of the future through athletics.

Project Information

Project Location:	2399 Tilbrook Rd, Monroeville, PA 15146
Project Description:	MBSA is seeking funding to improve the infrastructure and sporting experience for athletes in the Monroeville and surrounding area. The funds will be used to improve the infrastructure at Monroeville Community Park West Baseball and Softball complex, include replacing field turf, lighting and safety netting , as well as installing scoreboards and batting cages to be used by all that rent the facilities to make Monroeville the premier destination to host tournaments, parties, and community activities.
Problem Remedied:	Due to consistent use, the current turf is approaching the end of its certification and the degradation of quality is posing a risk to the athletes that utilize this space. In order for this project to be successful, the facilities must be addressed first. Beyond that, MBSA's primary goal is to provide structured, educational athletic opportunities to local youth with a level of quality that attracts families from bordering municipalities, making this the premier destination for local youth athletics and events. As it stands, MBSA does not have the proper equipment to conduct worthwhile instructional programs for our participants and others who are looking to genuinely improve their skill level. At present, we almost entirely utilize these facilities for recreational activities led by parent volunteers. Our hope is to partner with professionals that can provide advanced training and skill development at little to no cost to those that are looking for it. This will allow our organization to provide the necessary tools to offer county residents who want their children to participate the opportunity to do so at great facilities, regardless of their socio-economic status.

Site Information

Do you have control of this site?	Yes
When do you expect to obtain control?	
Type of controlling interest:	Other

Site Description			
Land Acquisition:	No		Acres
Facility (acquisition):	No		Square Feet
Facility (construction):	Yes	337,590.00	Square Feet

Project Time Table

Anticipated Construction/Project Activity Commencement Date:	3/1/2023
Anticipated Construction/Project Activity Completion Date:	4/21/2023
Anticipated Equipment Purchase Date:	11/1/2022
Anticipated Equipment Delivery Date:	2/1/2023
Anticipated Acquisition Date:	1/1/2023

Funding Shortfall

Explain how any potential funding shortfalls will be addressed.

While we don't anticipate any funding shortfalls based on the request, MBSA is prepared to work with the local Municipality to ensure that this project is completed in its entirety. MBSA has personally earmarked \$50,000 to support this project, and the municipality has committed personnel and resources to all future attempts by MBSA to revitalize the facilities.

Land Use and Planning

Does the proposed project comply with the current zoning regulations?
Not Applicable
Identify the permits required and their current status (e.g. application submitted; hearing scheduled; approved). Please provide details.
N/A
Please explain what steps will be taken to obtain the appropriate zoning designation.
What was the previous use of the land and are there any environmental problems associated with that use?
There are no environmental impacts with the proposed enhancements.
Does the project involve any environmental impact where U.S. Environmental Protection Agency (EPA), PA Department of Environmental Protection (DEP) mandates, or Allegheny County Health Department(ACHD) citations are relevant?
No
If yes, then please explain.
How will the proposed structure impact the existing surroundings?
N/A
Does the proposed project comply with a neighborhood or municipal master plan?
Yes
If yes, then please explain.
This project will stimulate and revitalize the community and turn Monroeville into a premier destination for hosting events and youth athletics, not just through MBSA, but through other local organizations.

Community Impact

Is the project acceptable to the surrounding community?

Yes

If no, then please explain.

Will there be temporary or permanent relocation of individuals as a result of the project?

No

If Yes, how will this be administered? Please provide details.

Will the project create employment opportunities of a short-term (construction period) and/or long term (facility staffing, etc.) nature?

No

If Yes, describe the nature of the employment and whether it will be drawn from the local labor market. Please provide details.

What is the estimated increase in tax revenue to Allegheny County as a result of this project/development? Please provide details.

N/A

Economic Development Addendum

Activities may include any activity designed to create or retain jobs

Please identify type of controlling interest:

Job Retention

Job Title	# Created	# Temporary	# Retained	Hourly Wages
Concession Worker	15.00	0.00	15.00	\$10.00

Provide a description of how the project or activity is expected to create and retain jobs:

Although MBSA is a nonprofit organization comprised of volunteers, we are the managers of the local concession operation, through which MBSA employ 15 local youth. We also provide employment to umpires/officials and local athletic trainers that we partner with for camps and clinics. In addition to this, the construction and annual maintenance of this project will allow the municipality to retain their parks and recreation staff. The goal of this project is to expand our capacity to serve local community youth and partner with local businesses to provide supplies and services that support community growth and engagement.
