Basis of Cost

Provide the basis for calculating the costs that are identified in the Project Budget.

Bids/Quotations, Budget Justification, Contractor Estimates, Engineer Estimates

Budget Narrative

The narrative must specifically address each of the cost items identified in the Project Budget section. If an amount is placed in any of the

OTHER categories, you must specify what the money will be used for. **NOTE:** Some programs have specific guidelines regarding the narrative necessary to qualify for that particular resource. Please read the Program Guidelines for details.

MBSA has either received estimates and/or quotes for the work we're looking to have completed, or the items we plan on purchasing are sold commercially at specific price points.

The batting cages, which will require construction and materials that will be purchased and completed by the Municipality of Monroeville, have a current estimated cost of \$43,000 based on the last cost estimate the municipality provided. We have allocated \$50,000 of GEDTF funds to complete this, with the extra \$7000 accounting for overages or changes in the cost of labor and materials. The other \$50,000 of our GEDTF award will be allocated to make improvements that enhance the fields at Monroeville Community Park, such as replacing the bulbs for the flood lighting, repairing the netting and fencing, etc

There are a number of options for scoreboards and video boards, but rough estimates for 4 of each put those anywhere from \$50,000 on the low end to \$150,000 on the high end with installation. Our goal is to keep the total expenditure for those around \$75,000. We have broken that and the public announcement system out across equipment and new installation, covering \$125,000 of DCED funds.

The league will allocate \$75,000 for league specific training equipment to enhance participant experience - specialty bats, swing training devices, pitch and other training machines, as well as small items and upgrades to our concession stand.

The last \$50,000 of DCED funds will be allocated for space and consultants for participant development, as well as promotion of the upgraded programs we plan to offer.

Project Narrative

What do you plan to accomplish with this project?

Identify the problem(s) that need to be resolved.

Our goal with Project Sandlot is to enhance the infrastructure at Monroeville Community Park West Baseball and Softball complex to improve the experience for local participants and their families, and to attract groups from surrounding areas to utilize the facilities.

The pandemic started as the 2020 MBSA season was beginning and greatly affected our operation. First, we were closed. When we reopened fall 2020 we experienced a significant decrease in participation. The concession stand, our primary source of revenue, was closed that entire year. We experienced a decrease in income from all sources: registrations, tournaments, sponsorships, and the concession stand. Participation has since received, but all major projects were put on hold. We are looking to raise the money to resume and accelerate those projects in order to enroll more participants, conduct more activities, host more tournaments, attract more sponsors, and operate a stronger, more efficient concession operation.

How do you plan to accomplish it?

Include expected outcomes that are measurable, obtainable, clear and understandable, and valid. Examples of measurable outcomes include jobs created or retained, people trained, land or building acquired, housing units renovated or built, etc.

MBSA is working with the Municipality to update the infrastructure at Monroeville Community Park West: installing batting cages, digital scoreboards and LED screens, a central PA system, purchasing training equipment/materials for participants, and modernizing the concession stand to make Monroeville the premier destination for recreational/club baseball, hosting tournaments, parties, and community activities locally.

The concession upgrades will allow us to expand our offering and more efficiently manage the operation that is MBSA's primary source of revenue. Park infrastructure upgrades will attract more groups willing to pay a premium to use the facilities for tournaments and instruction, increasing local tourism. As we currently can not leave banners or signs from our sponsors hanging at the facilities, LED screens will allow us and others to attract more and better promote them. The equipment we purchase will improve the offering for our participants and partners.

How do you plan to use the funds?

Should include specific use of funds and reflect the budget provided with the application.

MBSA plans to use a portion of the funds to improve the infrastructure at the facilities: 2 batting cages, 4 digital scoreboards & LED screens, training equipment/materials, and concession upgrades/supplies. Beyond that, we intend to provide structured, educational athletic opportunities to local youth at those facilities, with a level of quality that attracts families from

bordering municipalities. The goal is to make Monroeville the premier destination for local youth athletics and events.

Currently MBSA does not have the proper equipment to conduct worthwhile instructional programs. We almost entirely utilize these facilities for recreational activities led by parent volunteers. Our hope is to partner with professionals that can provide advanced training and skill development at little to no cost to those looking for it, in facilities with equipment that are as state-of-the-art as can be found regionally.

Projected Schedule and Key Milestones and Dates

A detailed schedule of activities, including key milestones and dates, must accompany this application if applicable to the project.

We plan on having the concession stand upgraded, batting cages completed, scoreboards and LEDs installed, and all equipment purchased by April 29, 2023 - opening day for our spring season.

Getting the batting cages installed is priority one - we have a commitment from the Municipality that they will begin working on that as soon as we have our contracts.

Other improvements to the facilities at Monroeville Community Park West will occur over the course of 2023 on a schedule set by the municipality.

We plan to schedule out developmental activities beginning in the fall of 2023 and continue those through early 2024, before the start of the 2024 Spring Season.
